SUMMARY

Motivated MCA student specializing in Artificial Intelligence and Data Science with a strong interest in building practical AI solutions. Experienced in machine learning, natural language processing, and computer vision through academic projects and research. Led a 22-member team during the Infosys Springboard Internship to develop an AI-powered email classification system achieving 95.49% accuracy. Passionate about solving real-world problems and continuously learning emerging AI technologies.pportunities to contribute to impactful AI and data-driven solutions.

EDUCATION

Master of Computer Applications (MCA) – AI & Data Science — **CGPA: 7.34/10.0**
Amrita Vishwa Vidyapeetham, Mysuru — Aug 2025 – Aug 2027

Bachelor of Computer Applications (BCA) — **CGPA: 7.26/10.0**
Amrita Vishwa Vidyapeetham, Mysuru — Jun 2022 – Jun 2025

Pre-University Course (Commerce) — **Percentage: 81%**
Seshadripuram PU College, Mysuru — Aug 2020 – Jun 2022

Secondary School (CBSE) — **Percentage: 70%**
Amrita Vidyalayam — 2020

EXPERIENCE

Team Lead – AI-Powered Email Classification — Infosys Springboard — GitHub — Feb–Apr 2026
Led a 22-member team to develop an enterprise email classification system using DistilBERT, achieving **95.49%** accuracy. Built an end-to-end ML pipeline including data preprocessing, feature engineering, model comparison (DistilBERT, SVM, LSTM), FastAPI backend, and React.js dashboard for intelligent email classification and urgency prediction.

PROJECTS

Sign Language Recognition with RNN & Hill Climbing — GitHub — Mar 2026
RNN-based system on SignAlphaSet (26,000 ASL images). Achieved 92.4% accuracy with Hill Climbing optimization (+5.2% over baseline). Precision: 92.1%, Recall: 92.6%, F1: 92.3%.

Predicting Depression Through Social Media Behavior: Integrating Behavioral Features and Hybrid Methodologies — GitHub — 2024-25
First Author (Submitted to MIKE 2026). 98% KNN accuracy. Evaluated SVM (95%), ID3 (91%), Naive Bayes (94%). Clustering: K-Means vs K-Medoids analysis.

TECHNICAL SKILLS

Programming Languages: Python, C, SQL **Machine Learning:** Classification, Regression, Clustering, Feature Engineering, Data Preprocessing, Model Evaluation **Deep Learning:** Convolutional Neural Networks (CNN), Recurrent Neural Networks (RNN), Transformers, DistilBERT, Hill Climbing Optimization
Tools & Platforms: GitHub, Google Colab, Tableau
Soft Skills: Problem-Solving, Teamwork, Leadership, Communication, Time Management

CERTIFICATIONS

Deep Learning, NLP, Computer Vision, Neural Networks, Artificial Intelligence, OpenAI GPT Models, Data Analysis with Python, Data Science Foundations, Generative AI with LLMs, Python Fundamentals, Software Engineering, Agile Scrum (30+ from Infosys, Great Learning, LinkedIn Learning)

ACHIEVEMENTS

- Led 22-member team: 95.49% email classification accuracy with DistilBERT
- RNN sign language recognition: 92.4% accuracy on 26,000 ASL images
- First-author research: Mental health prediction (MIKE 2026 submission)
- Certified Karate Instructor, Referee, Judge (7+ years); Head of Tatami; KIO Referee Course & Exam Certified (WKF Competition Rules Version 2026)
- Volunteered: UG Orientation (2023, 2024), Amritavarsham70, IEEE CCEM
